Hettich – a family owned company

Outstanding engineering achievements. Entrepreneurial courage. And a reliable instinct for the needs of the market. These are the cornerstones of Hettich's success – the same ones we've been building on for over 125 years. Back in 1888 Karl Hettich designed a machine that revolutionised the production of anchor escapements for Black Forest cuckoo clocks. In 1928, August Hettich turned towards the furniture industry with an innovative production line for piano hinges.

Encouraged by further achievements, brothers Paul, August and Franz Hettich set up a new company at Herford in 1930. Kirchlengern became headquarters in 1966. Our company has been a wholly owned family business ever since – now with Dr. Andreas Hettich at the helm as the fourth generation managing director.

Technology for furniture – our passion for over a century. Throughout the world, the Hettich brand stands for quality, innovation, reliability and closeness to customers. Some 6,000 people at Hettich develop intelligent technology for furniture – with renewed commitment every day. Hettich is at home in Kirchlingern, Germany, where we create compelling solutions for people around the globe – solutions that make a big difference in furniture and in people's lives.

Finest quality workmanship

Our promise to you, our customers, is outstanding quality. In every single Hettich product. How do we keep this promise? With the passion, expertise and sophisticated production processes that make every Hettich product just what you have come to expect: reliable and long lasting, safe and easy to install and use.

We fully embrace our responsibility for the environment. We regard statutory regulations as minimum requirements which we exceed with tremendous drive and passion. At sites in an ecologically sensitive environment we apply the stringent EMAS Regulation. In everything we do, we focus on using nature's resources carefully and saving raw materials. Our Hettich Forum office building and showroom as well

as the ArciTech production facility are perfect examples of our sustainability philosophy. The new production building's primary energy requirement is 73 percent lower than limits set by the German Energy Saving Regulation. And the Hettich Forum has received the national Green Building Award.

Hettich products must work safely and reliably. They must be sturdy and strong, easy to install and user friendly. This requirement profile demands ambitious research and development – and meticulous quality management.

In complex test procedures, we test every Hettich product for qualities such as durability, resistance to changing climatic conditions, safety and ergonomics.

The promise we give to our customers is: "fit and forget": once installed, Hettich products simply get on and do their job day after day after day. For furniture manufacturers, Hettich quality guarantees the reliability and long life of their own products. And the lasting satisfaction of furniture buyers.

German quality you can trust

eServices: expertise on the web

Hettich app:

Our app is available from
the respective online store

Hettich is your reliable partner on the web, too. Benefit from our intelligent online tools: product catalogues with CAD data in 2D and 3D, quickly downloaded drawings, instructions and certificates, planning aids and much more besides. Always up to date and quickly accessible from www.hettich.com

Online catalogue for Hettich Fittings: the easy way to find, select ... and order them directly online. With valuable additional information. This is also where you can order products noted down in the configurator, planning tool or flip page catalogue.

Media library: this is where you will find all Hettich catalogues, brochures, magazines, certificates, installation instructions ... and other current publications. With user friendly search function.

Social Media: Stay in touch with us! On Facebook there's always plenty of interesting Hettich news and open dialogue. YouTube shows you product films and installation videos.

Flap weight in kg (MDF: 19 mm thick, density = 900 kg/m³)

Flap fittings

- Technical information
- Calculating flap weights

Adjustment to different material thicknesses

The values in the tables above refer to 19 mm thick material. The table value must be multiplied by a factor in order to adjust to material of a different thickness.

Formula for conversion

Flap weight = weight of 19 mm thick flap according to table above x factor

Conversion factors

Material thickness mm	Factor
15	0.79
16	0.84
18	0.95
19	1.00
20	1.05
22	1.16
23	1.21
26	1.37
29	1.53

Gently opened and extremely convenient: with the Easys electromechanical opening system, drawers open all by themselves in response to a light press on the front panel. And thanks to Silent System, they can be closed again at any time just as smoothly.

Ideal for purist, handleless design – e.g. for large, heavy pull-outs.

Unobtrusive and space saving, Easys is located behind the drawer rear panel to make full use of storage space.

A cable can optionally be fitted to avoid collisions in face angle applications.

The Easys electromechanical opening system can be used in a variety of applications: ArciTech, InnoTech, InnoTech Atira, wooden drawers and pull-outs for sink units.

Single unit application

20 - 21

**System components
for ArciTech, InnoTech Atira
and Quadro for wooden drawers**

22 - 29

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- Single unit application

Example application

- Ideal for use with waste bins
- Can be added at any time
- Easy installation as few components:
Connection directly to power supply unit (no more than one drive unit per power supply unit)
- No addressing necessary
- No synchronisation possible
- Not compatible with electrical system components 22 - 29

Set comprises:

- 1 drive unit
- 1 mounting bracket
- 1 power supply unit
- 1 power supply unit holder
- 4 drill in buffers for fitting into the drawer front
- 1 drilling jig for drawer front
- 1 drilling depth limiter
- 1 hole marking template
- Fixing material
- 1 rear panel bracket 11 mm (only for ArciTech with steel rear panel)

Article	Order no.	PU
Easys-Set without power cord	9 125 365	1 set
Power Cord	1 161 457	1 ea.

Planning dimensions

Minimum space required	X mm	Y mm
ArciTech with wooden / aluminium rear panel*	Nominal length - 13	Nominal length + 32
InnoTech Atira with wooden / aluminium rear panel*	Nominal length + 5	Nominal length + 50
Quadro with wooden drawers	Drawer length - 4	Drawer length + 42

* Rear panel bracket must be fitted, see page 26

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- Single unit application

Drilling pattern

Installation

Connection

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- System components

Set of profile mounts

- For attaching the profiles to top and bottom panel

Set comprises:

- 1 bottom profile mount, including 800 mm connection cable
- 1 top profile mount

Order no.	PU
9 082 357	1 set

Set of profiles

- For up to 6 drive units
- Can be shortened as required
- Aluminium

Set comprises:

- 1 mounting profile with integrated power and data cables (left)
- 1 mounting profile without cables (right)

Length mm	Order no.	PU
750	9 082 353	1 set
1000	9 082 356	1 set

Extension lead

- For extending the connection cable on the profile mount set or mounting bracket – only one extension lead may be used per connection cable
- Length 2000 mm

Advice:

- **Please note:** observe max. cable length for each power supply unit, see page 25

Order no.	PU
9 100 852	1 ea.

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- System components

Drive unit

- For opening the drawer / pot-and-pan drawer
- Tool-less assembly on profiles with automatic power supply
- Driving force infinitely adjustable
- **For use in the following countries:**
Australia, Austria, Belgium, Bulgaria, Belarus, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, India, Ireland, Italy, Japan, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, The Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Russia, Singapore, Slovakia, Slovenia, Sweden, Switzerland, Spain, Ukraine, United Arab Emirates, United Kingdom – other countries on request

Order no.	PU
9 078 139	1 ea.

Mounting bracket

- Used for special fitting situations, instead of the set of profiles and profile mounts
- For one drive unit
- With 800 mm connection cable

Order no.	PU
9 082 358	1 ea.

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- System components

Distribution block

- One distribution block is required per carcass

Order no.	PU
9 082 360	1 ea.

Distribution block bracket

- For mounting on the wall or bottom of the carcass
- For simplifying distribution block installation / removal

Order no.	PU
9 097 923	1 ea.

Distribution block extension

- For connecting distribution block to distribution block

Advice:

- **Please note:** observe max. cable length for each power supply unit, see page 25

Length mm	Order no.	PU
1500	9 082 362	1 ea.

Internal drawer / internal pot-and-pan drawer with steel rear panel

Aluminium rear panel

Wooden rear panel

Drawer / pot-and-pan drawer with steel or aluminium rear panel and side stabiliser

Easys electromechanical opening system

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- System components

Buffer for drilling into the front panel

- For fitting into the front panel
- 4 each must be mounted per front panel for front panel heights of more than 300 mm

Order no.	PU
9 082 365	2 ea.

Sensor

- For reliable activation with very high front panels
- Can be retrofitted
- Always activates the drive unit addressed to 1

Order no.	PU
9 079 944	1 ea.

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- System components

Y-cable for sensor

- Required when using two sensors

Order no.	PU
9 084 794	1 ea.

Cable for corner solution

- Prevents drawers or pot-and-pan drawers from being opened at the same time in diagonally opposite units

Order no.	PU
9 084 790	1 ea.

Button for collision guard

- Collision guard: prevents drawers or pot-and-pan drawers from opening when positioned next to or diagonally opposite units with hinged doors, larger units or similar cabinets

Order no.	PU
9 105 850	1 ea.

Easys electromechanical opening system

- For ArciTech, InnoTech Atira and Quadro with wooden drawers
- System components

Set of cable ties

Set comprises:

- 50 self adhesive base plates
- 50 cable ties

Order no.	PU
9 109 834	1 set

Drawer runners for wooden drawers

► KA ball bearing runners

Intelligent technology – robust quality:

The ball bearing runners from Hettich guarantee smooth running action and high lateral stability. Hardened steel ball bearings, enclosed in noise absorbing plastic, provide many years of reliable, maintenance free service in any

application. Available as partial, full or over extension runners, they are the ideal choice when it come to meeting exacting demands in the office, living room or bedroom.

Full extension runner:
with smooth gliding action and ergonomic access to drawer contents, load capacity up to 45 kg.

Over extension runner:
whole storage space at a glance, with a load capacity up to 90 kg.

Drawer runners for wooden drawers

► FR roller runners

Noticeable convenience opening and closing drawers:

roller runners with integrated self closing function and roll-out prevention. A further benefit: the drawers are easy to remove, e.g. for thorough cleaning or for quickly taking

their contents somewhere else. The system is simple and secure, sturdy and durable, open to tolerances and production-friendly.

Partial extension runner:
load capacity of up to 30 kg.
Suitable for many applications.

Over extension runner:
with a load capacity up to 50 kg.
Unobstructed view of everything inside.

Hettich keeps a firm hold. What fittings from Hettich join together just doesn't come apart. Hettich also supplies reliable and easy to use solutions for more difficult connections in furniture construction.

Solutions that open up numerous design options using classic or lightweight materials. Convenient on-site assembly. Hettich fittings keep what you promise your customers.

Small components, big performers: Hettich connecting technology is brimming with expertise. For perfect results.

Spherical eccentric cam: For a better hold in the drill hole. The screwdriver can be held at an angle for greater convenience.

Providing a firm hold: Strong connections between shelves and side panels. High load capacity.

Connecting fittings for carcases

► Summary

Rastex 15 and Rastex 25 eccentric cam connecting fittings
Can be used in conjunction with fast installation dowels Twister

58 – 59

Eccentric cam connecting fitting with spherical
eccentric cams VB 35 / VB 35 M
Can be used in conjunction with steel dowels

60

62

Eccentric cam connecting fitting with spherical
eccentric cams VB 36 M
Can be used in conjunction with steel dowels

61

62

TZ 28 block connecting fittings
For connecting carcasses, also suitable for solid wood

63

Worktop connectors

64

Connecting angles / connecting screws

65 – 66

- ▶ Rastex 15
- ▶ Rapid S dowel for Rastex 15, Twister dowel for Rastex 15

- ▶ With torque support – allows furniture side panels to be pulled into place from space up to 4 mm from the panel end
- ▶ Twice as secure thanks to interior and exterior indentations – the dowel is always pulled in to the centred position, ruling out any displacement of furniture components!
- ▶ Eccentric cam can be tightened with flat-blade screwdriver, Pozidrive screwdriver PZ 3 or Allen key AF 4
- ▶ With or without rim, the rim covers any jagged drillings, making an additional cover cap unnecessary
- ▶ zinc die-cast

Rastex 15 without rim

Information on loading capacity of cabinet suspension brackets and on accessories

The following basic loading principles must be observed when using cabinet suspension brackets and accessories:

- Both the furniture design and the quality of the furniture's material and production are beyond our control.
- The quality and condition of wall materials are also beyond our control.
- The suspension hooks we supply must be used with wall plugs and are intended for attachment to solid brick, solid sand lime brick, concrete or engineering brick. An 8 mm hole must be drilled into the wall, with the plastic wall plug being knocked in to leave it flush with the surface. The hook must be screwed into a depth that leaves at least 10 mm of its length projecting from the wall.
- Commercial type special mounting elements must be used for attachment to other wall materials.
- Dowels and screws must be matched to one another. Ordinary chipboard screws must not be used instead of wall plug screws.
- Mounting suspension rails:
 - with 2 special screws, $\varnothing$ 5.5 x 50 mm, at the level of each cabinet suspension bracket
 - from a carcass width of 900 mm, an additional special screw, $\varnothing$ 5.5 x 50 mm, must be fitted at the centre on the back of each carcass (type A, type B and type H).
- Add on elements, such as end shelves, must not be fitted without separate cabinet suspension bracket.

Fitting systems for kitchens
Summary

78 – 79

Fitting systems for wardrobe interiors
Summary

115

Neat on the outside, clever inside.

That's the motto of modern kitchens. Intelligent fitting systems from Hettich let you include innovative functions behind attractive front panels. Also make efficient use of narrow cabinets and inaccessible corner to the benefit of

your customers: provide unobstructed, easy access to storage space. High quality materials and attractive design define the look of first class quality.

Making full use of corner storage space: with the LeMans II swivel pull-out. Shelves swivel independently of each other and are height adjustable.

Internal pot-and-pan drawer for wall units: ideal for narrow and tall elements. For kitchen and bathroom. Variable, can be retro-fitted, smooth running action.

Fitting systems for kitchens

► Summary

Base unit interior fittings

80 – 89

Corner unit equipment

90 – 99

Sink unit equipment

100 – 101

Waste collecting systems

102 – 103

Interior fittings for larder units

104 – 112

Wall unit interior fittings

113

Base unit interior fittings

- ▶ 90° pot-and-pan drawers
- ▶ With full extension runner and Silent System

- ▶ Base unit pot-and-pan drawers permit a large variety of possibilities for combination
- ▶ Optimal use of the available space with compensating and diagonal base units

Pull-out frame

- ▶ Frame with full extension ball bearing runner complete with Silent System
- ▶ Attached to the carcass side
- ▶ Suitable shelves / baskets are simply hooked in
- ▶ Inside carcass depth / width depend on the front bracket used
- ▶ Front brackets and shelves / baskets must be ordered separately
- ▶ Right and left-hand version
- ▶ Load capacity 24 kg
- ▶ Powder coated steel brilliant white

Page reference:

- ▶ For front brackets, see below
- ▶ For Arena STYLE shelves, see page 81

Type	Height mm	Minimum inside carcass height mm	Dimension B mm	Order no.	PU

- ▶ Folding door corner unit carousel fitting
- ▶ Revo 90°

Revo 90° corner unit carousel fitting

- ▶ Basic fitting for carcass dimensions 800 x 800 and 900 x 900 mm
- ▶ The Revo 90° mechanism lets the front panel of the cabinet disappear in the carcass when the unit is opened, thus ensuring unhindered access to the storage space
- ▶ With integrated Silent System, the closing speed can be adjusted without the need for tools
- ▶ For inside heights of 660 - 860 mm
- ▶ The mounting cross makes an additional top panel unnecessary
- ▶ With ClickFixx fast installation system
- ▶ Load capacity 25 kg / bottom panel
- ▶ Carousel fittings infinitely height adjustable
- ▶ The basic fitting is designed to accommodate two bottom panels
- ▶ Powder coated steel, silver

Set comprises:

- ▶ 1 mounting frame including spacers
- ▶ 1 telescopic center column with folding door mechanism and drawer front connectors
- ▶ 1 carousel shelf support for the second shelf

Order no.	PU
9 080 040	1 set

Technical information/legal notice

General technical conditions

The fitting information, screw fixing points and load capacity information contained in this catalogue assume proper attachment using screws specified by Hettich to a chipboard panel providing a screw pull out resistance of at least 1,000 N in accordance with EN 320.

Hettich accepts no responsibility for the load capacity of furniture and its components if materials or fastening methods are used other than those stated; the furniture manufacturer must verify load capacity.

The fitting situations shown in this catalogue are only intended to illustrate the possible options.

The furniture manufacturer is responsible for ensuring that furniture is designed in compliance with standards, in particular with regard to meeting the requirements on safety.

We will be pleased to provide any further information you may require.

General Terms of Sale and Delivery

All products and services will be provided exclusively on the basis of our General Terms of Sale and Delivery published on our website at www.hettich-agb.com.
