

The Kids Bedrooms

Explore the Practical use of our Innovative Hardware Products

With two children of their own, Britt and Taz brought both heart and practicality to their Block kids' bedroom designs.

The first room, created with a girl in mind, immediately drew praise for its striking “Daylesford” bedhead, which became the hero of the space. A soft pink cloud-print Grafico wallpaper added artistic flair, while a study desk detailed with marble and warm brass trims elevated the room’s sophistication. Generous space in front of the wardrobes also ensured the layout felt open, functional, and well thought out, featuring Sensys hinges.

The second bedroom took on a playful yet refined personality, designed for a boy, a twin sleeper set the tone, complemented by plaid wallpaper that brought a lively, youthful edge. Clever bench seats doubled as soccer goals and despite these playful touches, the room still felt luxurious, with a neutral but intriguing palette that delivered a modern-contemporary country style.
