

The Kids Bedrooms

Explore the Practical use of our Innovative Hardware Products

Han and Can's kids' bedroom reveals showcased their versatility, balancing calm sophistication in one space with vibrant playfulness in the other.

Han and Can approached their kids' bedroom reveals with confidence, delivering spaces that balanced style with a sense of fun. The first room carried an arched theme, highlighted by a cloud-inspired bedhead and subtle illumination that added warmth and atmosphere.

The second bedroom took a completely different direction, bursting with colour and character. A pastel palette set the scene for a lively, uplifting atmosphere, while soft curves and arcs behind the bed created a cohesive design link to the first room. Together, the two spaces showcased Han and Can's ability to create distinctly different looks — one calm and refined, the other vibrant and playful.
